

**AMENDMENTS TO THE CLAIMS**

This listing of claims will replace all prior versions, and listing, of claims in the application:

**Listing of Claims:**

1. (Canceled)
2. (Currently amended) The steering wheel as claimed in claim ~~[[1]]~~ 16, wherein the holding part bears against the steering wheel skeleton.
3. (Currently amended) The steering wheel as claimed in claim ~~[[1]]~~ 16, wherein the holding part is adhesively bonded to the steering wheel skeleton.
4. (Currently amended) The steering wheel as claimed in claim ~~[[1]]~~ 16, wherein an interspace, which is filled by the steering wheel foam ~~surround~~ material, is present between the steering wheel skeleton and the holding part.
5. (Currently amended) The steering wheel as claimed in claim ~~[[1]]~~ 16, wherein the holding part surrounds the steering wheel skeleton at least partially at one point.
6. (Currently amended) The steering wheel as claimed in claim 5, wherein the holding part has a U-shaped ~~design in the region of~~ configuration adjacent the steering wheel skeleton.
7. (Withdrawn) The steering wheel as claimed in claim 5, wherein the holding part has an L-shaped design in the region of the steering wheel skeleton.

Application No. 10/802,401  
Amendment dated July 28, 2005  
Reply to Office Action of April 28, 2005

8. (Withdrawn) The steering wheel as claimed in claim 1, wherein the holding part has a flat design in the region of the steering wheel skeleton.

9. (Currently amended) The steering wheel as claimed in claim ~~[[1]]~~ 16, wherein the holding part is adjacent ~~provided on~~ a spoke of the steering wheel.

10. (Currently amended) The steering wheel as claimed in claim ~~[[1]]~~ 16, wherein the holding part ~~provided~~ is a sheet metal part.

11. (Currently amended) The steering wheel as claimed in claim ~~[[1]]~~ 16, wherein the holding part ~~provided~~ is a plastic part.

12. (Currently amended) The steering wheel as claimed in claim ~~[[1]]~~ 16, wherein the build-on ~~parts can be fastened to~~ part comprises an adaptor, ~~as the first build-on part~~, which is connected to the holding part and allows an additional build-on part to be connected thereto.

13. (Original) The steering wheel as claimed in claim 12, wherein the adaptor is an adaptor plate.

14. (Currently amended) The steering wheel as claimed in claim ~~[[1]]~~ 16, wherein the holding part is connected to the build-on parts by means of screws or rivets.

15. (Currently amended) The steering wheel as claimed in claim ~~[[1]]~~ 16, wherein ~~[[that]]~~ the first portion of the holding part which lies within the steering wheel foam surround has a smaller longitudinal extent than the portion which lies outside the steering wheel foam surround.

16. (New) A steering wheel for mounting of a build-on part thereto, the steering wheel comprising:

a steering wheel skeleton;

foam material surrounding the skeleton; and

a holding part that is substantially fixed relative to the skeleton by the foam material so that a first portion of the holding part is in the foam material and a second portion of the holding part projects therefrom for mounting of the build-on part thereto.

17. (New) The steering wheel of claim 16 wherein the skeleton is free of apertures or recesses for supporting the holding part in substantially fixed relation thereto.

18. (New) The steering wheel of claim 16 wherein the first portion is spaced from the skeleton and embedded in the foam material to be surrounded thereby.

19. (New) The steering wheel of claim 16 wherein the foam material provides the only holding force between the holding part and the steering wheel skeleton.

20. (New) The steering wheel of claim 16 wherein the steering wheel skeleton and the holding part have predetermined substantially fixed positions relative to each other via molding of the foam material to surround the skeleton with the skeleton and the holding part in the predetermined substantially fixed positions.
